*"We had an intense boot camp in ABAP and the experience with MindWorks was very positive. We stayed within budget, met our goals, and felt that we got the biggest bang for our bucks."*

**Application Development Manager,  
Fortune 100 manufacturing company**

# ABAP Developer Training

## WORKSHOPS AND BOOT CAMPS

### Raise your ABAP skills to the next level

How is your ABAP? Are you using the latest programming tools and techniques or are you caught up in less-efficient methodologies? From developing custom ABAP programs to mastering the tools of the ABAP workbench to gaining efficiencies in solving production problems, it's essential that you maintain a solid ABAP skill-set. MindWorks Developer Training workshops and boot camps bring you the latest in ABAP knowledge in courses customized to meet your needs.

### BENEFITS

- Flexibility in topic sets
- Shorter timeframe, higher Return on Investment
- No fluff topics
- Less downtime for team members
- Shorter student ramp-up period

### COURSE OFFERINGS

<b>SKILLS REFRESHER</b> SHORT DURATION TARGETED TRAINING	<ul style="list-style-type: none"><li>• 1/2 to 1 day</li><li>• Designed to hone skills in a single topic area</li><li>• Held on-site or remotely</li></ul>

### MindWorks instructors leverage real-world experience to create an exceptional training experience

#### MindWorks Instructors:

- Average 8-10 years of experience working with SAP in a consulting and training capacity
- Are seasoned SAP consultants, offering experience accumulated over many client engagements – not "the textbook view"
- Are fully trained on the latest SAP releases
- Offer practical real-world examples to reinforce lessons
- In many cases, are certified by SAP, delivering SAP courses on their behalf

# The MindWorks Training Process: Efficient, flexible, comprehensive

Our ABAP training process makes it easy to learn and retain knowledge. We'll configure and load test data for lessons onto your SAP client system, provide all course materials and exercises, schedule in ample time for questions, and conclude with a comprehensive course evaluation.

## Why MindWorks ABAP training?

- **Customized** – Your company's SAP system is unique, and your training should be, too. We'll tailor workshops or boot camps to your needs, combining multiple courses or mixing and matching content – whatever provides maximum value for you. We create content that is specific to your industry, and fine-tune it to meet the experience level of your developers.
- **Flexible** – Most MindWorks workshops and boot camps are held on-site at your location. We travel so you don't have to! That means less travel expenses, lost time and administrative hassles. We can deliver courses on an expedited schedule, if desired, minimizing your team's time away from the job.
- **Cost-efficient** – By charging a fee per class rather than per student, MindWorks offers you significant cost savings. Since you pay only a single upfront cost, you can feel free to invite all of your employee and consultant ABAP developers to attend.
- **Top Training Systems** – Our instructors leverage SAP's built-in training environment and will configure hands-on exercises guaranteed to improve the integration of ABAP skills, which can then be applied on the job.
- **Top Customer Service** – From your initial consultation on content and system configuration to coordinating the classroom materials and collecting student evaluations, we'll meet and exceed your expectations.
