PRESS & REVIEWS

“★★★★”

Book of the Month, Bookreview.com – A Must Read!

A young woman finds an old journal containing spiritual teachings that sends her on a journey of discovery.

“A fascinating premise, and the author really knows his subject.” *St. Martin’s Press*

“**A groundbreaking experiment** in consciousness-oriented fiction. And a serious page-turner.” *Adam Elenbaas, author of Fishers of Men, The Gospel of an Ayahuasca Vision Quest*

“**Reading Waking Maya triggers knowledge** you hold within yourself, it resonates with the truths buried deep inside, and awakens parts of you ... If I could put one book in the hands of everyone today, this would be the book.” *Zanne Marie Gray, Bookreview.com*

“**Goldie’s work is on the leading edge** of our human growth into new realms of understanding ... A fine step forward.” *Robert F. Butts, co-author of Seth Speaks*

“**Goldie is a sensitive and illuminating writer.** But what was of most interest to me finally was the metaphysical exploration of a non-local world in which energy circulates, connecting and causing events, and those with sufficient extrasensory powers can read and influence cultural happenings.” *Drew Leder, M.D., Ph.D., author of Spiritual Passages: Embracing Life’s Sacred Journey*

Rated #1 Goodreads’ listopia: Metaphysical Truths Explained Through Fictional Stories. Rated 4.5 stars on Amazon and Goodreads. Learn more: www.WakingMaya.com.

Initially self-published in 2004, Waking Maya has been downloaded more than 10,000 times. It is available as a re-release in an expanded 2022 version.

Readers Want Spiritual Fiction

Millions of people worldwide are fascinated by theories of metaphysics and spirituality. The Law of Intention posits that highly focused thought and emotion can create desired events. Waking Maya explores these wisdom teachings as they relate not only to personal but to cultural change, showing how the beliefs held by groups of people can bring about larger-scale transformative social change.

Waking Maya will open you to a new way of thinking as its page-turning adventure unfolds. Though thousands of excellent nonfiction spiritual books are available today, spiritual fiction is a rarity, offering an exhilarating ride on the currents of your cherished beliefs. Readers of Way of the Peaceful Warrior, The Shack, The Celestine Prophecy, Eckhart Tolle, The Seth Material, A Course in Miracles, The Secret, and other paradigm shifting teachings love Waking Maya. As you read, your eyes, mind and heart will open to an expanded vision and the potential for dramatic healing change.

Amazon Reviews:

“I’ve been on the path of spiritual awakening for a few years now and have read a lot of nonfiction on the subject ... However, I am a huge fan of fiction and have been wanting to offset my nonfiction reading with some fiction. The story was well written, kind of genius really. I enjoyed reading this and recommend it to anyone on the path.” Laura Lee

“This is only the second book I’ve read that captures the metaphysical perspective of the Seth books by Jane Roberts. The first was by Jane Roberts herself, and sadly, was not as well written as Goldie’s book. Waking Maya takes us on a journey ... that allows us to understand the important implications of how we think and feel and its literal effects on mass experience. Thankfully, he does this through a story that is exciting, deep, and embraces many of the complexities in which we find ourselves today.” C.M.

“Read this and tell me you are not moved.” Amazon customer, U.K.

“I’ve read this book twice now and know I’ll read it again. The first time it was just an interesting novel. ...Thankfully, this is no ‘self-help’ book but I benefited as if it were. Even if you don’t care for introspection, read this book anyway. It’s great fun.” Linda

“A metaphysical masterpiece full of insights, adventure and metaphysical truths.”

“Waking Maya totally took me away and I did not want to return. The twists and turns keep me turning pages. Thank you for an awesome book!” Amazon customer
